Oatmeal Kit

Lékué expands its line of microwave cookware with the Oatmeal Kit. Simply place the ingredients in the cooker, microwave according to the chart, let rest for a minute and enjoy. The oatmeal cooker, which can be used to cook rice and other whole grains, is designed to prevent spillovers and is made from 100 percent platinum silicone, polybutylene terephthalate (PBT) and nylon.

The kit includes the oatmeal cooker bowl, the lid that releases steam and does double duty as a strainer, a serving spoon and a recipe book. The family-sized Oatmeal Kit retails for \$40 and one-serving oatmeal cookers retail for \$20.

Slow Juicer Pro

This year, Kuvings follows up its successful 2014 launch of the Kuvings Whole Slow Juicer with the Whole Slow Juicer Pro. The juicer is perfect for juicing enthusiasts, health food stores and retail applications. It can handle eight hours of continuous juicing — or 1,000 glasses of fresh delicious juice.

Like the Whole Slow Juicer, the Pro model also features a 3.5-inch feeding tube, a 240-watt, low-speed motor and a 500 ml bowl. Users can crush and squeeze whole vegetables and fruits, producing a glass of juice in seconds. It also prevents unwanted oxidation from cutting that often causes a loss in nutritional value. The patented system extracts the nutrients in fruits and vegetables enabling the body to obtain four times more nutrition than by eating fruits whole. Available in summer. SRPs: \$429 for the original, \$1,499 for the pro model.
