FLAVOR WRAPS

- Easy preparation – attractive presentation
- Bake or grill fish, vegetables, meats, etc.
- Infuse food with flavor while retaining moisture
- Natural cedar wood grown in the United States is cut very thin (only 0.016" - 0.03") to produce these intriguing flavor carriers.

Preparation is easy:

Soak the wrap for 10-15 minutes in water or a flavor enhancing liquid such as broth or wine.

Then wrap the food and tie the wrap with soaked string, onion skin, or scallion to secure, or simply place upside down on its seam. Proceed to bake or grill at 400°F.
