INSULATED COFFEE MAKER

Keep your favorite coffee deliciously hot 4x longer.
100% stainless steel, no plastic anywhere.

2017
WINNER
HOUSEWARES
DESIGN AWARDS.
Tableware, Serveware & Beverage

Patented dual filtration system with an exclusive Italian screen and coil/spring combination securely traps sediment.

FRENCH PRESSES

Award winning, and top-rated by countless magazines and coffee aficionados. A favorite in the best hotels and restaurants. Available in 3 exterior finishes. No more sediment in your cup!

5
YEARS

What makes Frieling French Presses different?

Zero sediment in the cup thanks to a patented two-stage filter system:

- Pre-filter plus a patented Italian super-fine mesh
- Metal wire inside the coil presses plunger more strongly against inside wall

Double-walled insulated body and lid:

- Retains heat better than glass
- Stays hot up to 4 times longer

No-drip spout:

- No need to worry about your linens
- Smooth pouring performance

Stainless steel construction:

- Durable 18/10 stainless steel inside and out
- No more broken glass or corrosion
- All parts are dishwasher safe

See the full Frieling French Press selection on page 4.

PENGUIN TEA TIMER *NEW*

- A fun, yet reliable way to brew tea
- Great gift idea

Instructions:

Simply hang a tea bag or tea ball on the beak. Fill a cup, mug or pot with hot water and place it below the tea bag/ball. Winding the timer to its maximum 20 minute setting automatically drops the tea bag into the water. Then you dial in the desired steeping time and when the time is up, watch the beak lift the tea bag/ball up and out of the water. Made of BPA free plastic.

DESCALERS

Keep your machine **HEALTHY**, your friends and family **HAPPY** by descaling with the #1 brand.

Trust durgol®, the World Market Leader

Durgol® was invented in Switzerland over 60 years ago. Over the years, this formula has been further perfected to become the world market leader in descaling.

The only descaler that protects your machine from an irreversible "heart attack"

Your coffee machine's heart attack is preventable

Don't make your coffee/espresso machine huff and puff! If you don't descale regularly, or use an inefficient descaler, it takes longer to brew (reduced heat transfer) and the coffee doesn't taste as good. Ultimately, the machine suffers the inevitable heart attack or, if recognized in time, at the very least will need to be returned for an expensive service.

→ It doesn't have to be that way! Thanks to regular descaling with durgol®, you keep your machine healthy and you enjoy your superb quality coffee or espresso for a long time. Here's what happens inside your machine:

durgol®

durgol® is the only descaler that removes 100% of the limescale and will NOT leave any calcium citrate or calcium lactate build-up behind. Your machine is basically returned to "factory new".

Citric Acid

Citric Acid based products cannot remove 100% of the limescale AND form an extra layer of calcium citrate on top of the remaining limescale! Your machine has begun to fail.

Vinegar

Vinegar stinks up the house and descales very slowly. The coffee will taste like vinegar for a long time. Vinegar turns tubes brittle and porous. Ultimately, they will crack or burst.

Typical choke points caused by limescale

DESCALERS

DURGOL® SWISS ESPRESSO

- No need to stock a different descaler for each brand or type of machine you carry!
- durgol® swiss espresso thoroughly & gently cleans them all.
- Specifically formulated (including an anti-foaming agent) for fully or semi-automatic, capsule or pods coffee and espresso machines.

durgol® guarantees:

Nothing works better

- ✓ safe for ALL brands
- ✓ no residue, no odor, no aftertaste
- ✓ extends the life span of the machine
- ✓ environmentally safe; 100% recyclable PET bottles
- ✓ made in Switzerland

Nothing is easier

- ✓ ready for use
- ✓ no need to dissolve in water (unlike powders and tablets)
- ✓ fast, yet effective
- ✓ powerful, yet gentle to the machine
- ✓ regular use ensures optimal coffee/espresso quality

Here's how various descalers compare:

2014 Lab test with 99% pure limescale (calcium) cube placed for 15 minutes in 200 ml decalcifier solution

Works on all types of coffee machines

Limescale is the *bad cholesterol* of coffee machines

Limescale clogs up your coffee machine's tubes and inner workings just like bad cholesterol clogs up your arteries.

And if that wasn't bad enough, there's **calcium citrate**: It forms when you descale with citric acid based cleaners.

Calcium citrate forms another layer inside your machine that cannot be dissolved by any cleaner (not even durgol®)!

You want both gone, for a machine that's clean and pristine, happily pumping away for years of an active life.

DESCALERS

DURGOL® UNIVERSAL

- Multi-purpose descaler for countless household items
- For coffee machines, kettles, ceramic tiles, faucets, irons and more
- Works 5 to 10 times faster than other brands

- ✓ Safe for all brands
- ✓ Easy to use

These are just a few of the items durgol® universal decalcifies in no time

DESCALIFIERS

DURGOL® SWISS STEAMER

- Specifically formulated to decalcify all brands of built-in steamer ovens
- For optimal quality of steamed foods
- Regular use ensures proper functioning of the appliance

Heated or standing water causes limescale. Limescale buildup is not only unsightly when visible, but it *poses a real danger* where it isn't seen – inside appliances (from coffee/espresso machines to steam irons). That is where – *just like bad cholesterol – deposits will clog and corrode the interior over time.*

DIAMOND **concept** PLUS Innovative multifunction cookware with a high-temperature silicone insert

DIAMOND **concept** PLUS

frieling
fresh solutions

CONCEPT PLUS

- Patented, 3-position vented glass lid with silicone rim fits into specially designed side handles
- Diamond reinforced nonstick coating on pots (see Diamond Lite)
- Multi-function silicone insert can be used as pasta insert, steamer, colander, trivet, or splatter guard. Insert is dishwasher safe and oven safe up to 500° F

ITEM #	DESCRIPTION	UPC / EAN
W124-1CPI	Concept Plus, Stockpot w/ Lid & silicone insert, 5.25 qt., 9.5" dia.	4054359000064
W128-1CPI	Concept Plus, Stockpot w/ Lid & silicone insert, 8 qt., 11" dia.	4054359002013

1. NORMAL LID POSITION
Firmly in place for heating, simmering or steaming at vitamin-friendly low temperatures.

2. RAISED LID POSITION
The lid is placed on the side handles, and is thus raised by about 3mm so the steam can escape. It is also ideally suited for fast, easy and safe draining.

3. PARKED LID POSITION
The lid is tucked into the side handle, and the pot is uncovered. The new functional design ensures that the condensation runs into the pot.

CONCEPT PLUS SILICONE INSERT

Combine the new Concept Plus cookware with a multifunctional silicone insert (dishwasher and oven safe up to 500° F)

ENTERTAINING & FOOD PREP

MORTARS & PESTLES

- Perfect for fresh guacamole, pesto, or grinding dry spices
- Grind or crush whole spices and herbs quickly and easily, releasing their full flavor and essential oils
- Each mortar is cut from one solid piece of natural, uncoated granite or marble for longevity
- The untreated inside features a coarse finish to facilitate grinding, while the tall walls won't let ingredients escape
- The pestles are heavy, yet comfortable to hold

"An excellent product. It's heavy, solid, with a slightly rough interior that makes it ideal for lightning-fast grinding and pureeing."

INDUCTION COOKTOPS

- Portable, quick and safe cooking anywhere!
- Easy control cooktop with touch control
 - Highest quality glass-ceramic surface
 - 180-minute timer with automatic shut-off
 - Temperature adjustable from 140°F to 460°F
 - Must be used with induction ready cookware
 - Frequency: 60 Hz. Voltage: 110-120 V. Watt: 1800W

How does induction work? When an induction-ready pan is placed on the induction cooktop, a magnetic field is generated that efficiently heats nothing but the bottom of the pan. Since the heat is generated in the pan itself, the actual cooking surface (cooktop) remains cool to the touch.

Brands of Distinction

Please help us welcome our newest partners:

Küchenprofi means “kitchen pro” in German, and the collection has been living up to its name since 1988. This broad assortment of highly functional kitchen tools will excite everybody’s imagination.

Zassenhaus celebrates its 150th anniversary in 2017! The brand has made its mark with pepper, spice and coffee mills. Founded in 1867, the company introduced its first pepper mill in 1904 and has a storied history of innovation - including the first continuously adjustable grinding mechanism made from high-quality German ceramic.

Our growth continues with these favorite brands:

Caso was founded in Germany in 2002 and quickly became a market leader with their innovative yet timeless small kitchen electrics. Dare we say, they just do it better!

Cilio has been a Frieling partner for more than two decades. This fine German brand is headquartered in the famous steel town of Solingen and is well known for its high quality kitchen, tabletop, serving and bar accessories.

Düring AG, the Swiss maker of **durgol**®, has specialized in decalcification for over 60 years. The assortment boasts highly effective, yet gentle descalers for any and all appliance brands.

Emsa was founded in Germany over 60 years ago. Frieling has been Emsa’s American partner for 28 years. Their product range revolves around the motto “the beauty of plastic is its versatility”.

WOLL® produces high-end diamond and titanium nonstick coated cookware exclusively in Germany. In its second generation of family ownership, WOLL® uses state-of-the-art technology to provide you with extraordinary cast cookware.

Since 1885, **Zenker** has specialized in the production of high quality bakeware. From the classic springform to the practical Layer Cake Slicer, Zenker stands for both tradition and innovation.
