## Brands of Distinction

**Küchenprofi** makes you want to cook as it opens up unknown culinary worlds and brings success to all your cooking. With Küchenprofi products, you turn meals at home into culinary events.

**Zassenhaus** celebrated its 150th anniversary in 2017! The company introduced its first pepper mill in 1904 and developed the world's first continuously adjustable grinding mechanism made from high-quality German ceramic.

**Caso** was founded in Germany in 2002 and quickly became a market leader with their innovative yet timeless small kitchen electrics. Always cutting edge!

**Cilio** has been a Frieling partner for more than two decades. This fine German brand is headquartered in the famous steel town of Solingen and is well known for its high quality kitchen, tabletop, serving and bar accessories.

Düring AG, the Swiss maker of **durgol**®, has specialized in decalcification for over 60 years. The assortment boasts highly effective, yet gentle descalers for any and all appliance brands as well as kitchen and bath cleaners.

**WOLL**® produces high-end diamond nonstick coated cookware exclusively in Germany. In its second generation of family ownership, WOLL® uses state-of-the-art technology to provide you with extraordinary cast cookware.

Established in 1885, **Zenker** is one of the oldest and largest bakeware manufacturers. All products are made in Germany and very well priced.

Who would have thought that our lives would turn out like this! Monika arrived in New York City in 1986, precisely on Bernard's birthday. We met two weeks later by a series of unbelievable coincidences, got engaged three months later. In early 1988 we founded Frieling USA and on 8-8-88 we got married. So 2018 offers many reasons to celebrate!

A lot has changed in three decades: We were so excited to be among the first companies with – drumroll! – a FAX machine! One day in late 1988 a “prospect” called us from a far-away state, Wisconsin. How did he hear about us, how exciting! In January 1989, we attended our first Chicago Housewares Show. But it was Mr. Chuck Williams, Founder of Williams Sonoma, who put Frieling on the map. This fine gentleman stopped at our small 10x10 booth at the San Francisco Gourmet Show, was intrigued by our Hot Rock Cooking Stone, and decided to put it on the cover of his catalog. To this day we are grateful for the confidence Mr. Williams placed in our start-up.

Our assortment has changed over the years, and our product categories have shifted to better represent current cooking and entertaining trends, but our passion for quality and innovation has remained the same, if not grown even stronger. Dare we say that our 2018 catalog contains the best collection yet?

We are most proud of and thankful for our amazing team of dedicated associates, committed representatives, and ingenious manufacturers. Together we do the best we can every day to service our customers in North America and some 70 countries around the world, whose loyalty we appreciate very much. Many of you, including public relations and trade media, have been with us from the beginning as well; what a great journey!

30 years have given us a rare opportunity to form precious friendships while building our business.

Thank you all for helping us live **the frieling feeling™** every day.

combination securely traps sediment.*

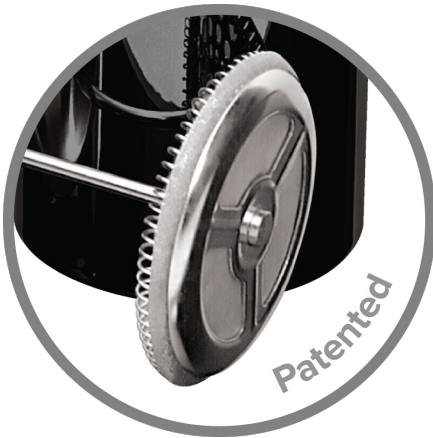

## FRENCH PRESSES

Award winning, and top-rated by countless magazines and coffee aficionados. A favorite in the best hotels and restaurants. Available in 3 exterior finishes. No more sediment in your cup!

### What makes the iconic Frieling French Presses different?

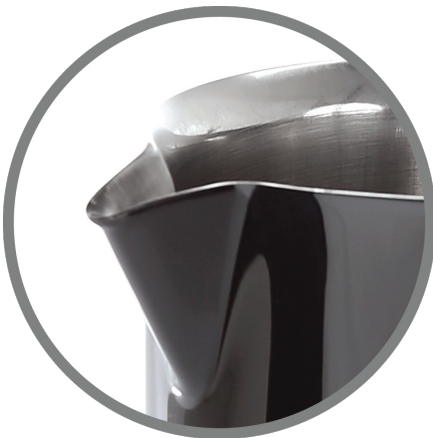

#### Zero sediment in the cup thanks to a patented two-stage filter system:

- Pre-filter plus a patented Italian super-fine mesh
- Metal wire inside the coil presses plunger more strongly against inside wall

#### Double-walled insulated body and lid:

- Retains heat better than glass
- Stays hot up to 4 times longer

#### No-drip spout:

- No need to worry about your linens
- Smooth pouring performance

#### Stainless steel construction:

- Durable 18/10 stainless steel inside and out
- No more broken glass or corrosion
- All parts are dishwasher safe

**Easy to use:**

For hot coffee, fill the filter with 6 tablespoons of coarsely ground coffee, add hot (not boiling) water, stir, and place lid on top. Allow to steep to your liking (3-4 minutes). Lift filter out if you wish to stop the brewing process, and serve.

For cold brew concentrate, add 2.25 oz. of coarsely ground coffee, stir, and place lid on top. Let it steep at room temperature for 16 to 24 hours; remove the filter and replace the lid. Chill for at least 2 hours and use within 5 days. To serve, dilute this concentrate with an equal amount of milk, half-and-half, or water. Optional: sweeten or top with ice.

# DESCALERS

Keep your machine **HEALTHY**, your friends and family **HAPPY** by descaling with the #1 brand.

**Trust durgol®, the World Market Leader**  
Durgol® was invented in Switzerland 67 years ago. Over the years, this formula has been further perfected to become the world market leader in descaling.

The only  
descaler that  
protects your  
machine from  
an irreversible  
"heart attack"

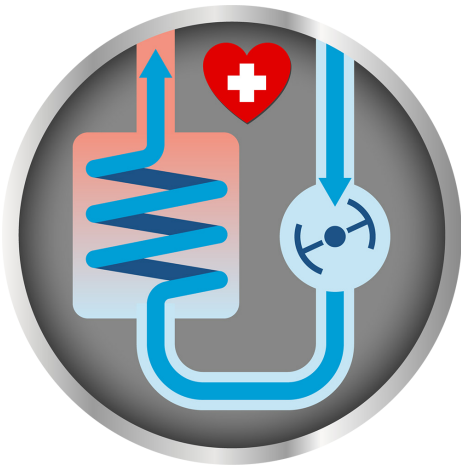

## Your coffee machine's heart attack is preventable

Don't make your coffee/espresso machine huff and puff! If you don't descale regularly, or use an inefficient descaler, it takes longer to brew (reduced heat transfer) and the coffee doesn't taste as good. Ultimately, the machine suffers the inevitable heart attack or, if recognized in time, at the very least will need to be returned for an expensive service.

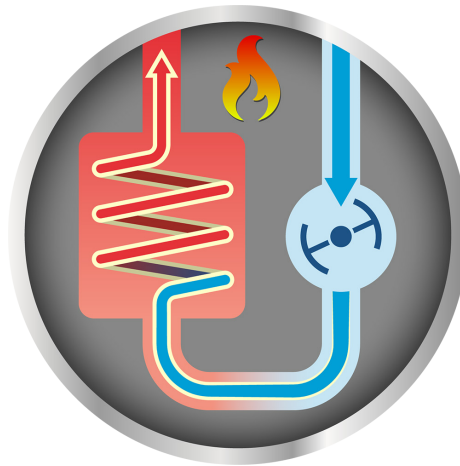

→ It doesn't have to be that way! Thanks to regular descaling with durgol®, you keep your machine healthy and you enjoy your superb quality coffee or espresso for a long time. Here's what happens inside your machine:

### durgol®

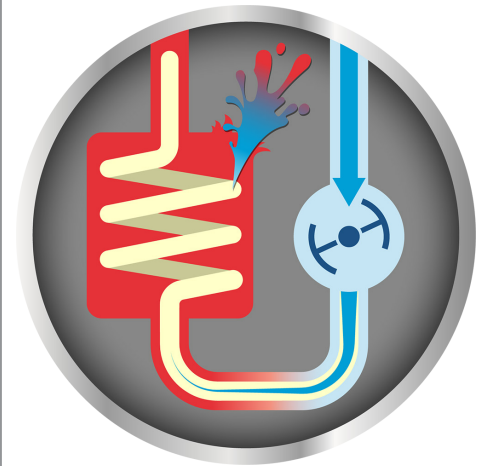

durgol® is the only descaler that removes 100% of the limescale and will NOT leave any calcium citrate or calcium lactate build-up behind. Your machine is basically returned to "factory new".

### Citric Acid

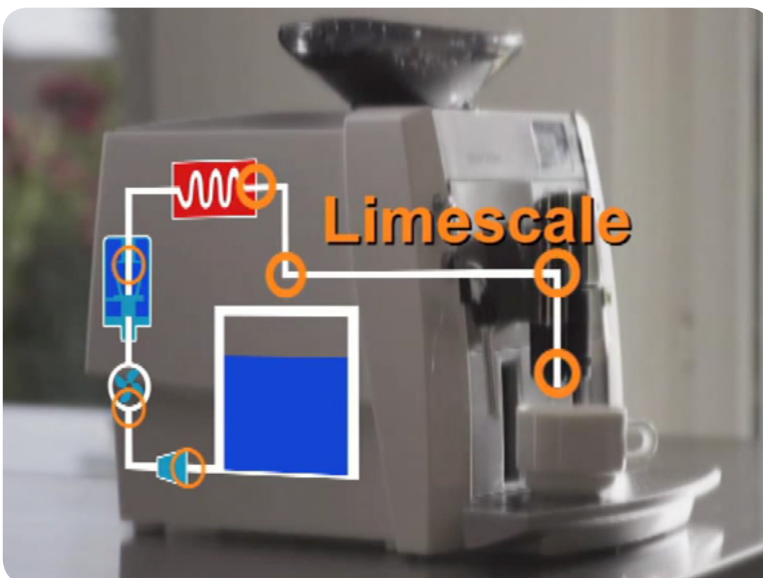

Citric Acid based products cannot remove 100% of the limescale AND form an extra layer of calcium citrate on top of the remaining limescale! Your machine has begun to fail.

### Vinegar

Vinegar stinks up the house and descales very slowly. The coffee will taste like vinegar for a long time. Vinegar turns tubes brittle and porous. Ultimately, they will crack or burst.

Typical choke points caused by limescale

# DESCALERS

## DURGOL® SWISS ESPRESSO

- No need to stock a different descaler for each brand or type of machine you carry!
- durgol® swiss espresso thoroughly & gently cleans them all.
- Specifically formulated (including an anti-foaming agent) for fully or semi-automatic, capsule or pods coffee and espresso machines.

### durgol® guarantees:

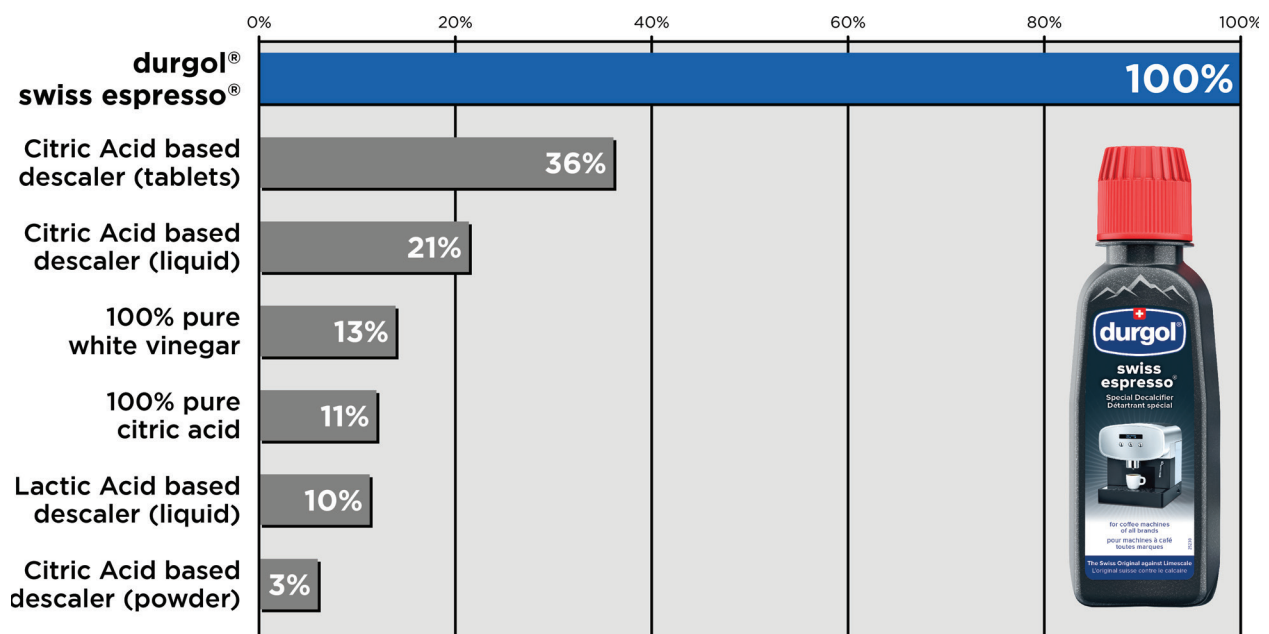

#### Nothing works better

- ✓ safe for ALL brands
- ✓ no residue, no odor, no aftertaste
- ✓ extends the life span of the machine
- ✓ environmentally safe; 100% recyclable PET bottles
- ✓ made in Switzerland

#### Nothing is easier

- ✓ ready for use
- ✓ no need to dissolve in water (unlike powders and tablets)
- ✓ fast, yet effective
- ✓ powerful, yet gentle to the machine
- ✓ regular use ensures optimal coffee/espresso quality

### Here's how various descalers compare:

2014 Lab test with 99% pure limescale (calcium) cube placed for 15 minutes in 200 ml decalcifier solution

**DURGOL® SWISS ESPRESSO**

See illustrations on pages 17 & 18

Commercial size is perfect for appliance service centers, coffee shops, high traffic office environments etc.

0292	durgol® swiss espresso®, 2.64 gal.	728547002928

Works on all types of coffee machines

**Limescale is the *bad cholesterol* of coffee machines**

**Limescale** clogs up your coffee machine's tubes and inner workings just like bad cholesterol clogs up your arteries.

And if that wasn't bad enough, there's **calcium citrate**: It forms when you descale with citric acid based cleaners.

www.frieling.com • sales@frieling.com

Calcium citrate forms another layer inside your machine that cannot be dissolved by any cleaner (not even durgol®)!

You want both gone, for a machine that's clean and pristine, happily pumping away for years of an active life.

WOLL DIAMOND LITE cookware is built from the core to provide superior performance

### 1. NORMAL LID POSITION

Firmly in place for heating, simmering or steaming at vitamin-friendly low temperatures.

### 2. RAISED LID POSITION

The lid is placed on the side handles, and is thus raised by about 3mm so the steam can escape. It is also ideally suited for fast, easy and safe draining.

### 3. PARKED LID POSITION

The lid is tucked into the side handle, and the pot is uncovered. The new functional design ensures that the condensation runs into the pot.

### CONCEPT PLUS

- Patented, 3-position vented glass lid with silicone rim fits into specially designed side handles
- Diamond reinforced nonstick coating on pots (see Diamond Lite)
- Multi-function silicone insert can be used as pasta insert, steamer, colander, trivet, or splatter guard. Insert is dishwasher safe and oven safe up to 500° F

## NATURAL STONE MORTARS & PESTLES

- Perfect for fresh guacamole, pesto, or grinding dry spices
- Grind or crush whole spices and herbs quickly and easily, releasing their full flavor and essential oils
- Each mortar is cut from one solid piece of natural, uncoated granite or marble for longevity
- The untreated inside features a coarse finish to facilitate grinding, while the tall walls won't let ingredients escape
- The pestles are heavy, yet comfortable to hold

*"An excellent product. It's heavy, solid, with a slightly rough interior that makes it ideal for lightning-fast grinding and pureeing."*

ECO-FRIENDLY  
COMMITMENT

Frieling is ever conscious of the impact humans have on the environment and is committed to minimizing its imprint.

We reuse shipping materials to the extent possible, we are paper free as is practical, and we constantly challenge ourselves to reduce, recycle, and reuse even more.

Our packing materials are made of 100% recycled material; our shipping boxes are composed of up to 30% recycled cardboard. Both are 100% recyclable.
