1. NORMAL LID POSITION
Firmly in place for heating, simmering or steaming at vitamin-friendly low temperatures.

2. RAISED LID POSITION
The lid is placed on the side handles, and is thus raised by about 3mm so the steam can escape. It is also ideally suited for fast, easy, and safe draining.

3. PARKED LID POSITION
The lid is tucked into the side handle, and the pot is uncovered. The new functional design ensures that the condensation runs into the pot.

CONCEPT PLUS

Patented, 3-position vented glass lid with silicone rim fits into specially designed side handles

LIVE-EDGE WOODEN SERVING BOARDS

Each wood board is crafted with a beautiful, natural bark décor all around it. Wood is sourced only from sustainable forestry practices and surface sealed with a special heat treatment. Because this line is made of natural wood, size will vary from item to item. Round boards will not be perfectly circular and will have the natural contours found in all wood. Serving paddles will not be uniform and will have slight variation in size and shape. Measures approximately 1.2” thick. Because this is a natural product, wood sizes will vary from: 15”-18” for Large Boards, 9.5”-12.5” for Medium Boards and 6”-9” for Small Boards.
